THE RULE

Hobby = non-commercial.

Vercel's free Hobby plan is for **non-commercial, personal use only**.

Vercel Fair Use Guidelines

WHAT COUNTS AS COMMERCIAL

More than selling things.

Any deployment that brings financial gain to anyone involved, for example:

- **getting paid** to build, update or host the site
- asking visitors for payment
- advertising a product or service
- affiliate-focused sites or ads

Vercel Fair Use Guidelines (examples, not a full list)

WHAT CAN HAPPEN

Paused account or deployment.

Vercel can pause it, and its knowledge base names commercial use on Hobby as a **common trigger**. Asking for donations doesn't count as commercial.

Vercel KB: Why has my account or deployment been paused?

CHECK YOUR PROJECTS

Is anyone making money?

Look at every live project on Hobby. If anyone earns from it, including the developer, it belongs on **Pro**: $20 per user per month, excluding tax.
