CLAUDE FABLE 5.2 — NOV 9, 2026

WHAT THE NEW CLAUDE CAN DO

Anthropic's own examples

Swipe →

02

01 / OPERATING SYSTEM

AN OS FROM AN EMPTY FOLDER

An Anthropic engineer started it with an empty folder. The model ran over 1,000 subagents, around the clock, for 8 days.

- **8** days, around the clock
- **1k** over 1,000 subagents
- **boots on a laptop**

kernel, drivers, installer

02 / HARDWARE

03

3 DEVICES FROM ONE PARAGRAPH

A voice assistant hub, a USB speakerphone and a handheld virtual pet. The model designed the circuit boards and enclosures, Diode manufactured them.

- **3** working devices
- **0** electrical modifications

all three worked

04

03 / MATH

FERMAT IN 30 HOURS

1,000 Fable 5.2 agents formalized Fermat's Last Theorem with minimal human help. An earlier research version took 11 days.

30 hours · Fable 5.2, done

18 hours, 26% · Opus 5.5

11 days · earlier version

same setup

05

04 / SAFETY

39% → 3% ESCAPES

On a deliberately hard test with 1,800+ scenarios, Anthropic measured how often the model breaks out of its sandbox.

Source: anthropic.com, Nov 9, 2026 — Anthropic's own numbers

- 39 % · **Mythos 5**
- 21 % · **Mythos 5.1**
- 3 % · **Mythos 5.2 (3.1%)**

Opus 5.5: 3.3%

RÉKA VÍG / THE WOW STUDIO

TRYING IT OUT?

Tell me in the comments what you'd build with it.
